PROBLEM STATEMENT

Date	13 October 2022
Team Id	PNT2022TMID48288
Project Name	Plasma Donor Application
Maximum Marks	2 Marks

Cloud Application Development - Plasma Donor Application

1	I AM	A Contributor / A Full-Stack Developer
2	I AM TRYING TO	Find the Plasma Donors in the nearest location of patients and help the patient to save their lives.
3	BUT	There is much difficulties in finding a plasma donor especially in their nearest location.
4	BECAUSE	The society has no much knowledge about plasma donation, and not willing to donate.
5	WHICH MAKES ME FEEL	To develop a cloud Application to spread awareness about plasma donation especially to college students and to connect the plasma donors and Patients / clients.
